## Testimonials

### Realtor

*"I recently had a deal fall apart because my buyer had a concern with the age of the roof and the seller was not willing to negotiate the cost of a new roof. I could have provided my buyer a peace of mind with a \$295 (2) Year Roof Warranty and closed this deal. How do I find a MoistureFree Certified Roof Inspector near me?"*

*Keller Williams-Realtor*

### Inspector

*"I've already taken the course and passed the test. I've made more money because of this program. I encourage anyone interested to take advantage of this new offer".*

*Frank Lesh-Home Sweet Home Inspection Company*

### Homeowner

*"I recently negotiated the sale of my home under an expedited schedule during which the buyers wanted assurance that the roof was in good condition. MoistureFree was able to schedule a roof inspection within days of my request, and thereafter provided warranty documents that immediately put the roof portion of the negotiations to rest. In my experience, this is a highly professional organization that should be contacted if looking for a roof warranty."*
