Don't Lose Your Next Sale Because Of A Questionable Roof!

*MoistureFree Warranty Company is pleased to announce that you can protect your next sale with a **MoistureFree Roof Performance Warranty at NO CHARGE.***

MoistureFree Warranty Corporation is a leading warranty company protecting thousands of stucco homeowners from moisture intrusion with the nationally recognized MoistureFree Warranty. With consumers demanding more protection, and in order to better preserve the reputations of Realtors, MoistureFree has created the **MoistureFree Roof Performance Warranty** for existing and new roofs, regardless of the home's exterior cladding. Existing roof warranties cover asphalt shingle systems. The MoistureFree roof warranty covers not only asphalt but tile, synthetic, & metal systems as well. In order for consumers to acquire this unmatched 3rd party protection, a **MoistureFree Certified Roof Inspector** must first conduct an inspection.

Most of the **MoistureFree Certified Roof Inspectors** are also professional home inspectors who can provide an entire home and roof inspection. They have acquired the additional training necessary to professionally inspect steep-slope roofs for their clients. Only a **MoistureFree Certified Roof Inspector** has the authority to approve a home for the warranties offered by MoistureFree.

Did you know that over 18% of E&O claims are directly related to moisture problems from roofing issues? And that 60% of these occur in the first 12 months!

In addition, MoistureFree Warranty Corporation is excited to inform the Realty community that by choosing a **MoistureFree Certified Roof Inspector**, you can protect your clients with a **MOISTUREFREE ROOF PERFORMANCE WARRANTY FOR 90 DAYS... AT NO CHARGE.**

This protection is placed on every client's home that has been inspected. Protect your clients with the coverage they need. Have your next home inspected by a **MoistureFree Certified Roof Inspector**, and for added peace of mind, suggest the long-term MoistureFree Roof Performance Warranty be purchased.

For more information regarding this protection or to locate an inspector near you, visit www.moisturefreeroof.com or call 1.800.400.8679
